📍 Din Daeng, Bangkok, Thailand

🌐 <https://www.lighthouse-tutors.com/about/>

I have over four years of hands-on, intensive programming experience through both study and practical application, including two years in a semi-commercial, production environment. After many years in education, I decided to take on the challenge of coding, ensuring my studies were thorough and meticulous. I used my website as a capstone project, incorporating all my skills into it. I am seeking a team-oriented company where I can continue to grow and develop my skills.

DEV SKILLS

- Python/Django
- JavaScript
- HTML/CSS
- Django REST Framework / React
- Linux
- SQL
- Git
